Invented in 2008

Invented in 2007

Technology is….

1. Anything that is in the world when you're born is normal and ordinary and is just a natural part of the way the world works.

2. Anything that's invented between when you're fifteen and thirty-five is new and exciting and revolution and you can probably get a career in it.

3. Anything invented after you're thirty-five is against the natural order of things.

-Douglas Adams

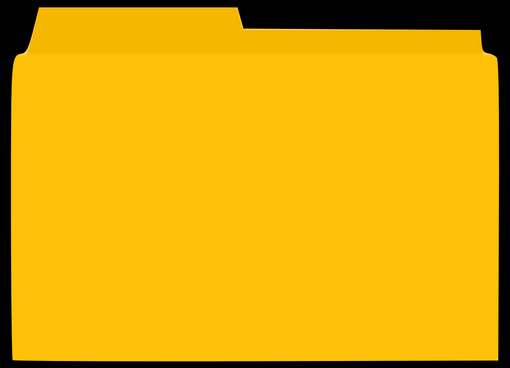
How do we encourage staff to be curious and take risks when failure is a bad word in education?

Peter Drucker

Perceptions of Failure Within a Team

Spectrum of perceptions of failure within a team.
Referenced: Amy Edmonson 'Strategies for Learning from Failure' https://hbr.org/2011/04/strategies-for-learning-from-failure

You are welcome to visit my room. We are rocking it!



You can come in, but know we are trying something new and it might fail.

Nothing to see here. Move along.
