Invented in 2008

Invented in 2007

Technology is….

1. Anything that is in the world when you're born is normal and ordinary and is just a natural part of the way the world works.

2. Anything that's invented between when you're fifteen and thirty-five is new and exciting and revolution and you can probably get a career in it.

3. Anything invented after you're thirty-five is against the natural order of things.

-Douglas Adams

Don’t get a car with a stranger

Don’t meet people from the internet

Today:
Contact a stranger from the internet to ride in their car.

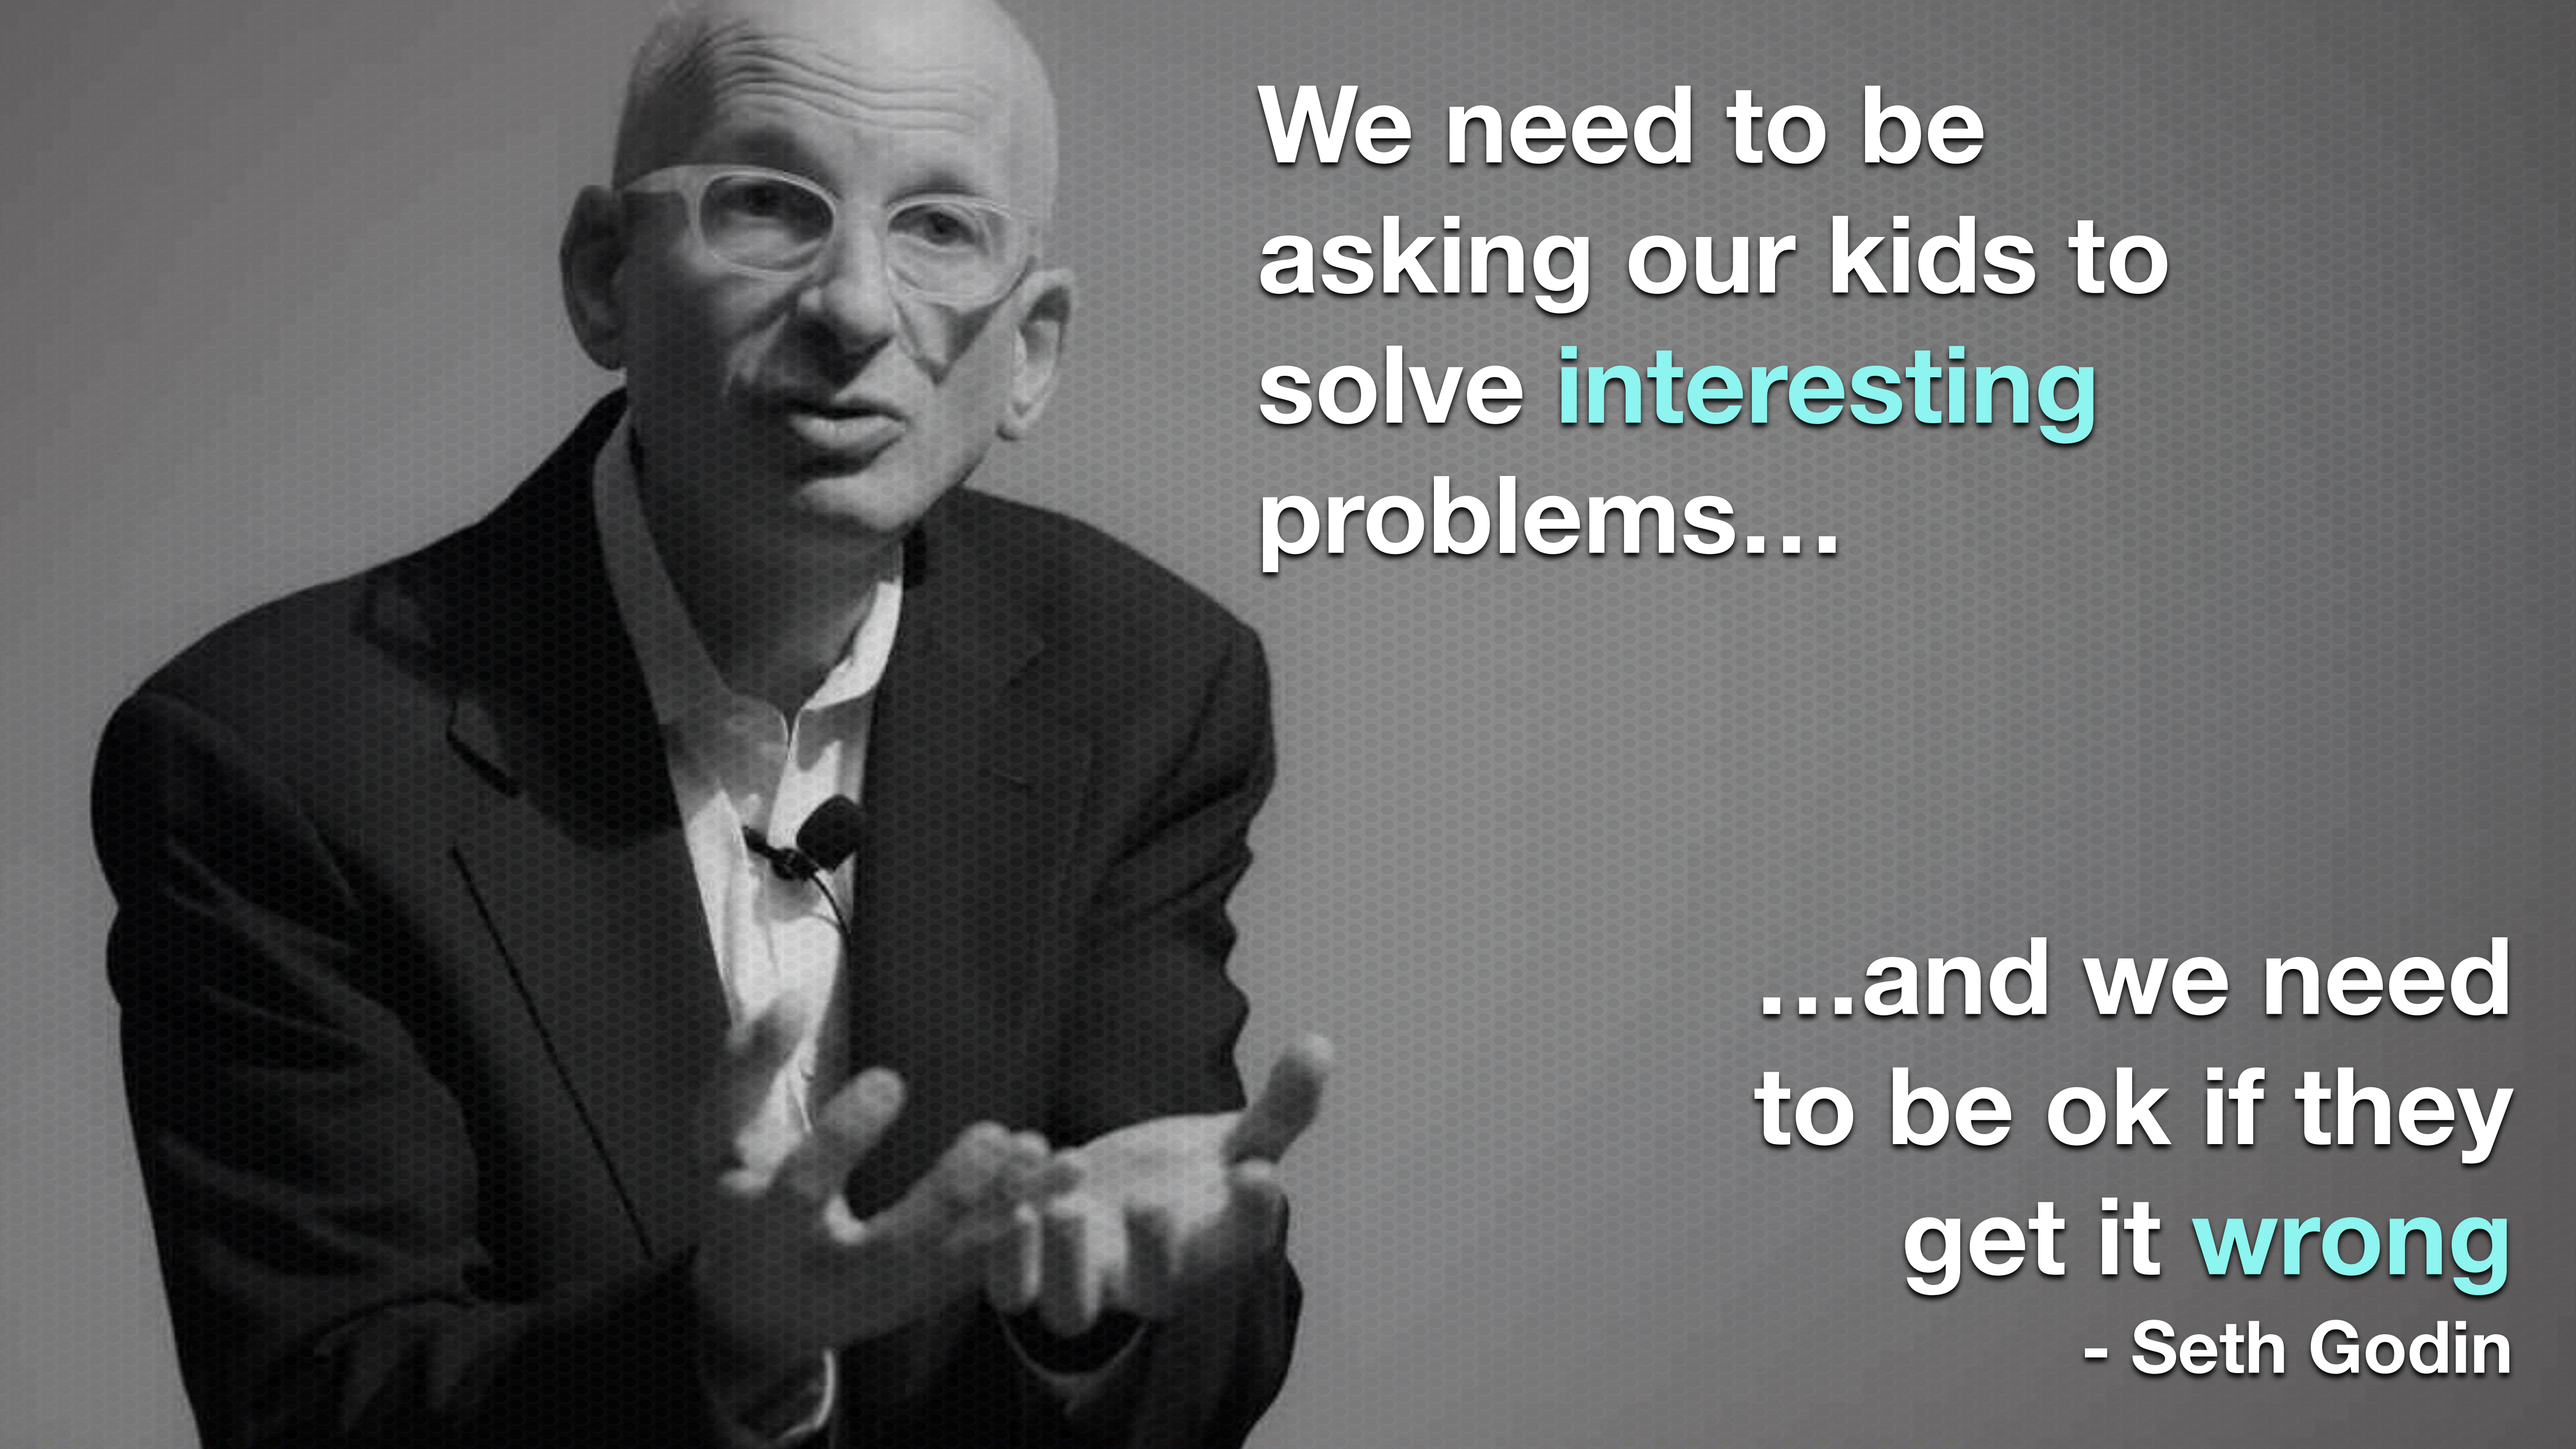
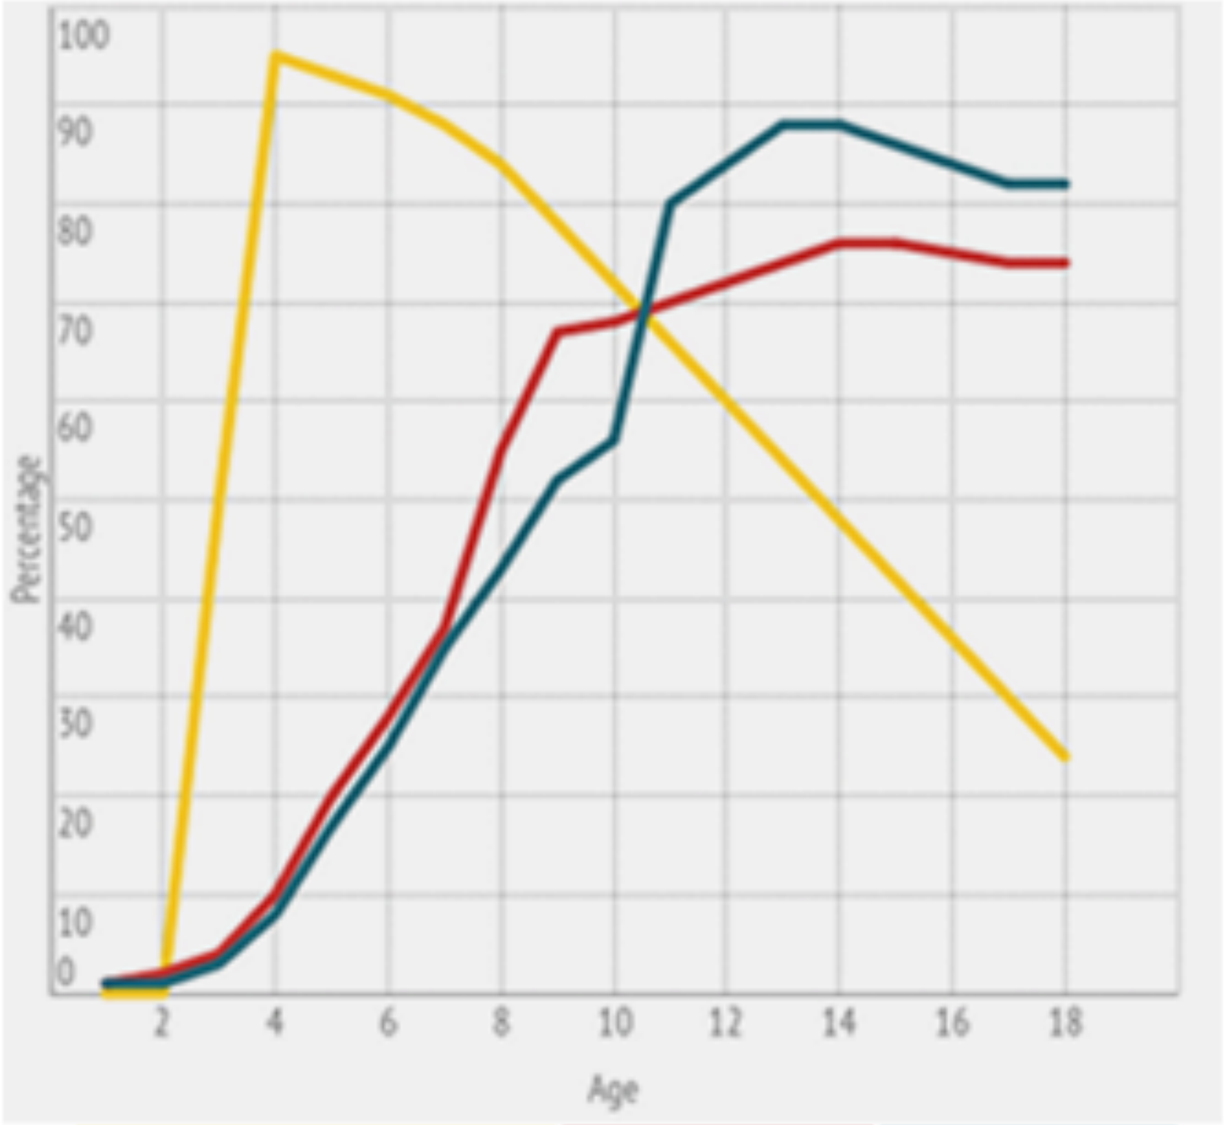
IS THIS GOING TO BE ON THE TEST?



We need to be asking our kids to solve interesting problems…
…and we need to be ok if they get it wrong
- Seth Godin

Why does kids' questioning drop off after age 3?



How do we keep this look of curiosity in our students?
