# The Definition Of Blended Learning

"Blended learning is an approach to learning that combines face-to-face and online learning experiences.

Ideally, each (online and off) will complement the other by using its particular strengths."

## THE 4 BIG SHIFTS IN EDUCATION

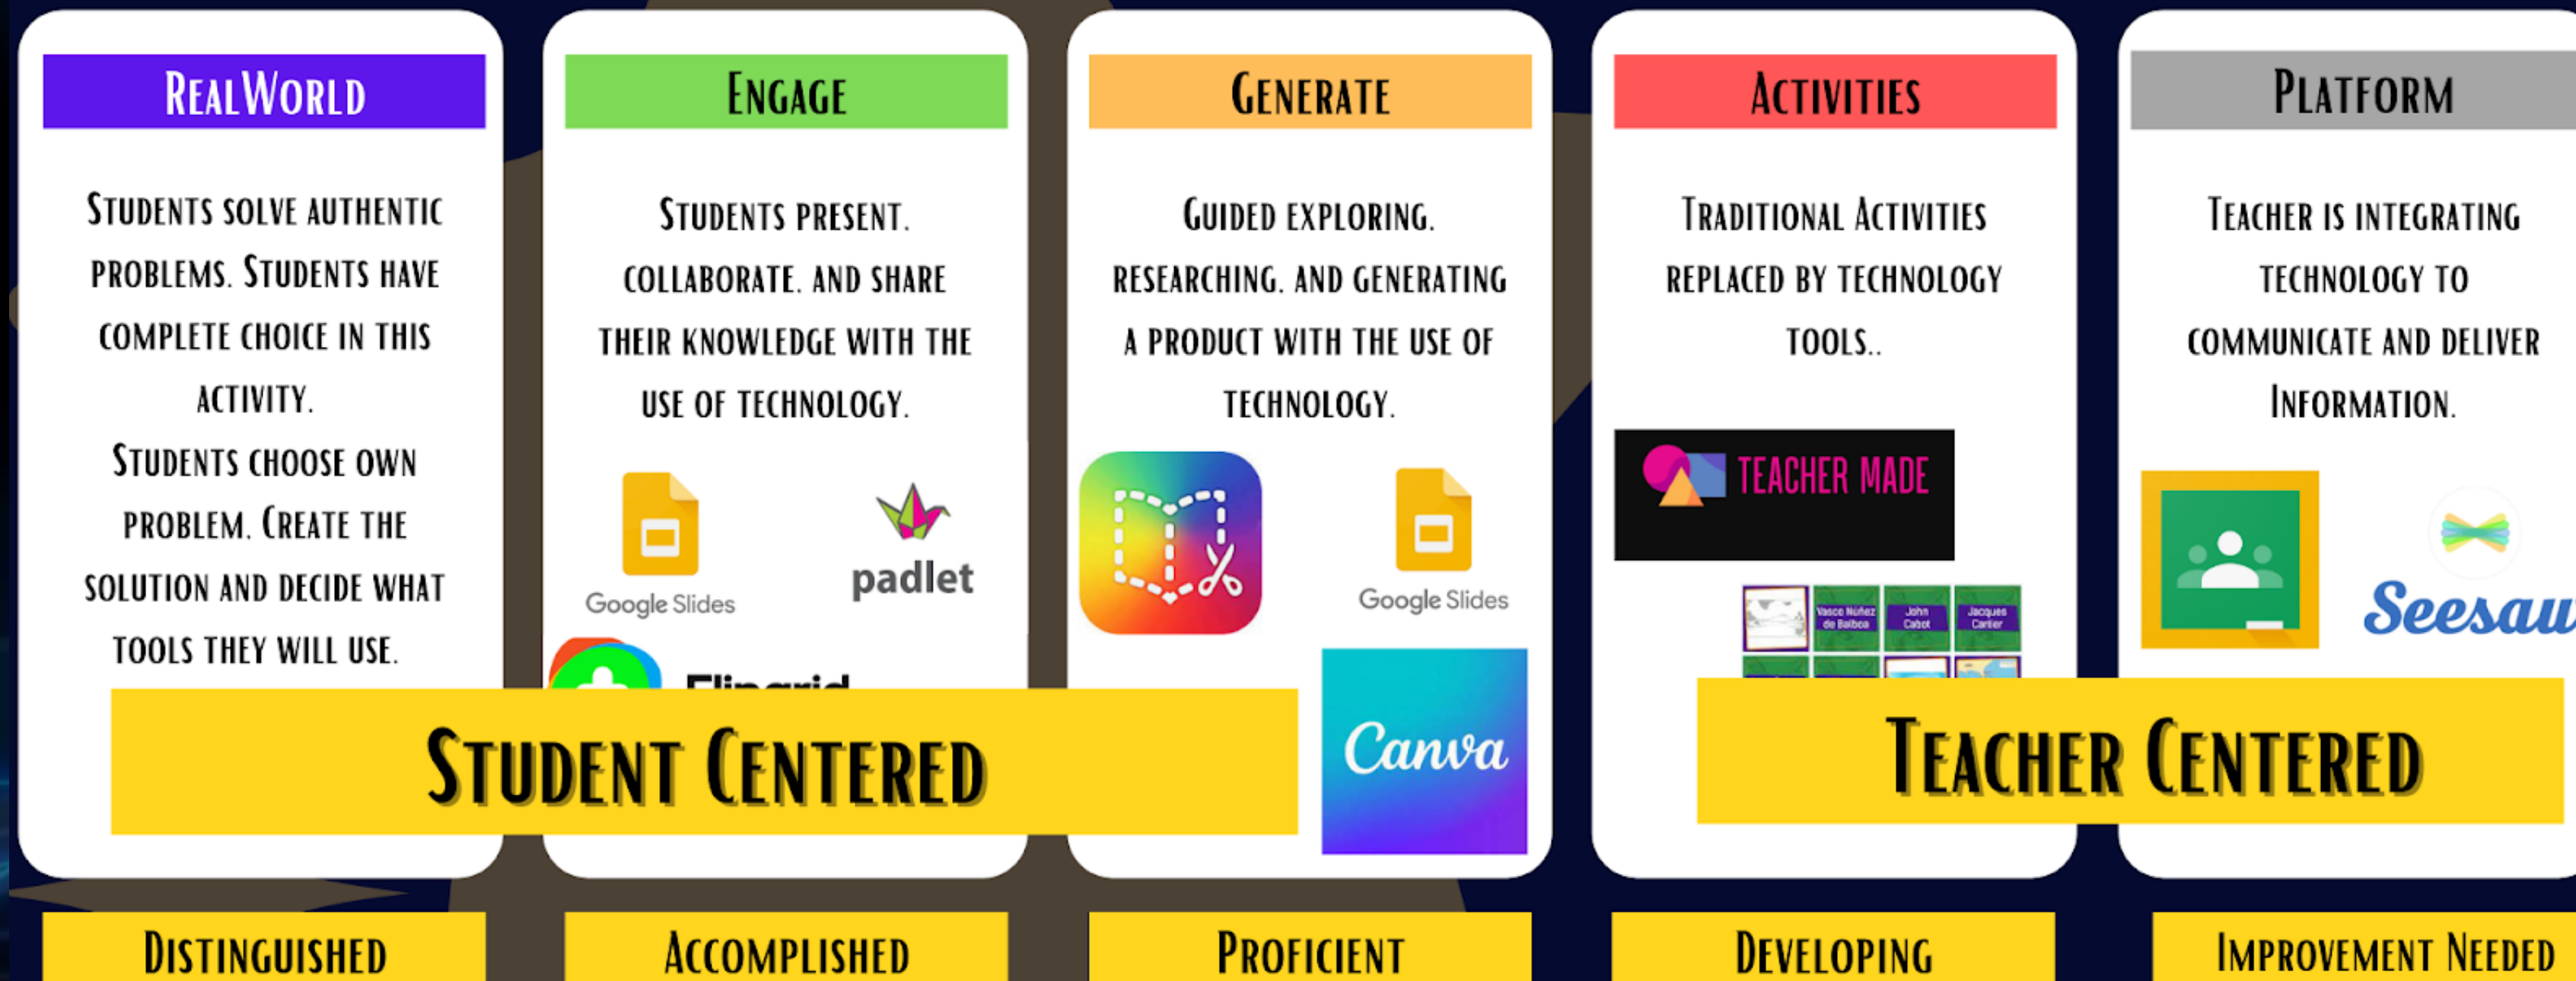

# Laying the groundwork

## PAGER MODEL

By: Dr. Tony Tipton & Daniel Rich

**Big Question:**

**How do we  
evaluate this?**

# A quick word about assessments...

# Types of Assessments

## Assessment **of** Learning

---

Student not directly involved in the assessment process

Final product

Demonstrates achievement of your learning

## Assessment **for** Learning

---

Student involved in the assessment process

Continuous Process

Used to receive feedback on your learning

## Assessment **as** Learning

---

Student actively involved in monitoring and assessing their learning

Continuous Process

Empowers you to manage your own learning

# Blended Assessments

Googleable vs  
**Non-googleable**  
question types

Synchronous  
vs  
**Asynchronous**

Summative  
vs  
**Formative**

5th period Hunt Biodiversity Jamboard

Place a sticky note on the notebook with your answer to #10 on the sheet.

landon hardy... forest 2 because there are more types of trees

thomas... Forrest two would contain more biodiversity.

Hunter Hines... The more diversity of organisms would be simulation 2 because they're more trees.

Austin... Forest two because each species of tree could provide food for many different animals

Elley Fincher... Forest #2 because the animals might like different trees.

Turner... Forest 2 because all of the different types of species (biodiversity)

Elley Fincher... Simulation 2 because of the variety of trees.

Forest provides a greater chance of survival because there are more possibilities for living the tree. Matthew

Alex Cuerrero... Simulation 2 has more trees immune than number 1.

Bradley... Forest 2 because different types have different organisms

Alan... The second forest with more diversity because the second has more plants

Madison... Forest two because all the trees in forest two would be dead bc of the disease

# **Domain 3 T-TESS Alignment**

**1.3 - Opportunities for students to utilize their individual learning patterns, habits and needs.**

**2.2 - Provides opportunities for students to use different types of thinking**

# Domain 4

Engage, Student  
Agency & Deeper  
Learning

Math-Gr5	5.3C	solve with proficiency for quotients of up to a hundredth, using strategies and algorithms
Math-Gr5	5.3D	represent multiplication and division of decimals using models, including area models
Math-Gr5	5.3E	solve for products of decimals to the hundredth using strategies based on place-value understanding and the multiplication of whole numbers
Math-Gr5	5.3F	represent quotients of decimals to the hundredth using number divisors, using objects and pictorial models
Math-Gr5	5.3G	solve for quotients of decimals to the hundredth using number divisors, using strategies and algorithms
Math-Gr5	5.3K	add and subtract positive rational numbers fluently
Math-Gr5	5.4A	identify prime and composite numbers
Math-Gr5	5.4B	represent and solve multi-step problems involving equations with a letter standing for the unknown
Math-Gr5	5.4E	simplify numerical expressions that do not contain grouping symbols
Math-Gr5	5.10A	define income tax, sales tax, and property tax
Math-Gr5	5.11	explain the difference between gross income and net income

How much **agency**  
do **students** have  
over how they learn?

## Nearpod Code: XGYTI

# Writing Tuesday

Complementary  
is 90

## BE THE TEACHER

Supplementary  
is 180

### Time to pass on what you know!

Pretend you have a student who hasn't learned about angles yet.

Explain how you know a pair of angles is complementary or supplementary. What should they know about the interior angles of a triangle? Teach them how you could find the missing angles below.

07:51

# **Domain 4 T-TESS Alignment**

**2.2 – Real world experience, constantly uses different types of thinking.**

**2.3 – Asks questions at the creative, evaluative and /or analysis levels that require deeper learning and broader understanding.**

# Domain 5

**Real World, Authentic,  
Problem-solving**

# Interactive Discussion

How are **students** solving real world problems through the use of technology?

# Domain 5 T-TESS Alignment

**2.2 - Integrates learning objectives with other disciplines, content areas and real-world experience.**

# Domain 6

Staff sharing, modeling,  
professional learning  
community

# Domain 6 T-TESS Alignment

## 4.3 – Teacher enhances the professional community
